

We are proud to announce Celia Baron's Thinking Strategies series will now be published and sold by MathImagine!

This highly regarded series has remained the same. Each book is filled with dozens of engaging and challenging activities, easy-to-follow lessons, built in practice, partner games, reproducible masters, and diagnostic sheets. Teachers can use Thinking Strategies with the entire class, small groups, or individual students. A perfect program for all students.

ALL 4

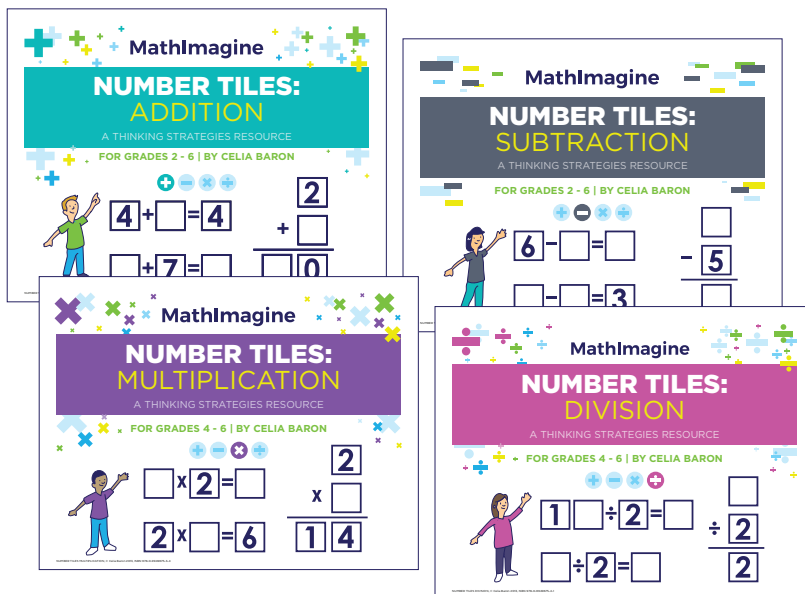

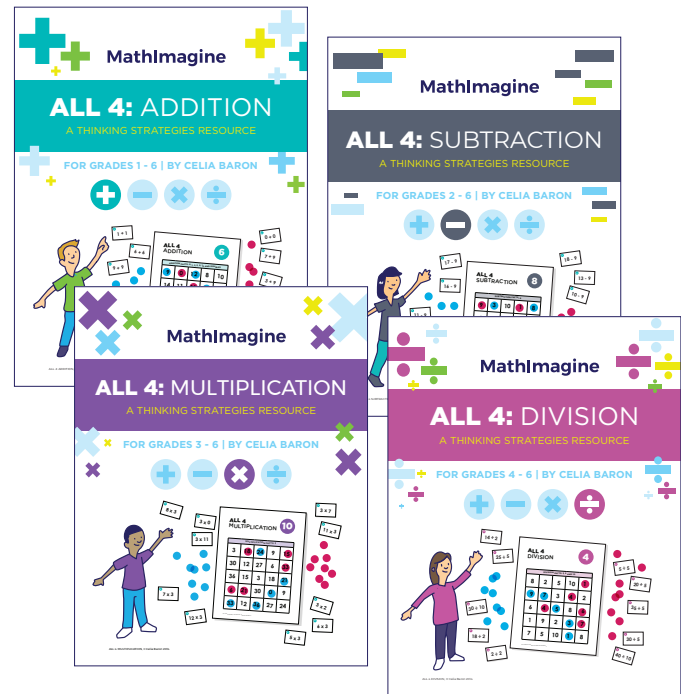

The ALL 4 game is a fun way to further develop basic fact fluency.

Each ALL 4 game includes 20 bingo games, following the same order as the Thinking Strategy resource.

Find a partner, answer the game cards and place bingo chips on the correct answer. The first person with 5 bingo chips in a row, column or diagonal wins the game.

NUMBER TILES

Number Tiles is an engaging way to promote fluency of basic facts and also use problem solving skills.

Each Number Tile game includes 30 puzzle cards, following the same order as the Thinking Strategy resource.

Simply choose a puzzle card, take a set of tiles numbered 0 - 9, and use each tile only once to correctly complete each fact on the puzzle card.
